Bismarck's Would-be Assassin Sentenced.

Affairs in the Argentine Confederation.

SOUTH AMERICA.

Affairs in the Argentine Confederation.

LISBON, October 30.—Advices by mail from Buenos Ayres state that the Congress of the Argentine Confederation has passed a resolution declaring the republic in a state of siege, and voted the necessary money to enable the Government to crush the insurrection. Many officials suspected of sympathizing with the rebels have been removed and trustworthy men appointed.

The newspapers *Nacion*, *Pampa*, *Pensa* and *Libertad* have ceased, and their editors fled the city. The *Nacional*, the official paper, has been suppressed and its editor sent to prison.

General Mitre sent to the Government from Montevideo his resignation as Brigadier. A sealed letter intimating that he would be arrested was returned. Mitre could not be found.

The President of the Argentine Republic says he can immediately muster and arm 20,000 men.

GERMANY.

Bismarck's Would-be Assassin Sentenced.

BERLIN, October 30.—The trial of Kullmann was resumed to-day. After taking testimony as to the mental condition of the prisoner, the President of the Court summed up the medical testimony to the effect that at the time of the assassination, as well as at present, Kullmann was accountable for his acts to but a limited degree. Kullmann was found guilty as charged in the indictment, and sentenced to imprisonment for fourteen years in the House of Correction, ten years suspension of his civil rights, and to remain under police surveillance for life.

At an examination held before Commissioner Riddell on the 26th inst., Edgar Hebert was discharged, and Huval and Charles Hebert placed under a bond of $6,000 each, and Durio $1,000. The others were arrested since that time, and waived an examination, and were put under a bond of $6,000 each.

Arrests in Iberia Parish.

The Marshal, with a squad of cavalry, arrested S. Gray and Agricol Grovemberg, of Iberia Parish, to-day.

The Jurisdiction of the Second District Court.

THE CAPITAL.

WASHINGTON, October 30, 1874.

Yellow Fever at Charleston.

Col. I. Vogdes, commander of the First Artillery, writes to the Adjutant General of the army, that owing to the prevalence of yellow fever in the city of Charleston, S. C., he has removed the troops under his command from Charleston to Summerville.

Trial of the Conspirators.

The safe burglary case was resumed this morning. The Judge decided that the conversation with lawyer Sommerville could not be admitted at present.

Hayes resumed his testimony. On the night of May 8 witness received instructions from Nettleship to go and see Sommerville about getting Benton released from jail in Washington. The day before Nettleship asked witness to come on himself and make affidavit that he induced Benton to come here and blow the safe open by an arrangement made with Columbus Alexander. At the request of Cunz witness called at Cunz's office on the morning following, and Cunz gave witness four fifty dollar bills, saying: "Nettleship told me to give this to you." On the Sunday following witness went to Toronto by direction of Nettleship. He was to receive eight dollars per day.

The same day Newcomb arrived in Toronto and showed witness a letter from Boston in the handwriting of Whitely.

The letter was produced in Court and read. It directed Newcomb to go to Toronto and see witness and try to get him to return to Washington and testify. If he would not go, then to take his deposition. Witness came on to Washington and testified, and was afterwards arrested and committed to jail on a warrant sworn out by Harrington. While in jail Harrington visited witness, and said: "I have nothing to do with your quarrels with Whitely or Nettleship, but will show you a way out of this. Riddle will call and see you to-morrow."

This ended the direct examination.

NEW YORK.

The Utah Grand Jury.

SALT LAKE CITY, October 30.—The Grand Jury adjourned for three weeks from Monday next, but commissioners from that body will in the meantime examine the city and territorial prisons, and investigate the city, county and territorial accounts in regard to the article which appeared in the Salt Lake *Herald* of October 18th, in connection with an article copied from the Virginia *Independent*, charging Judge McKean with appropriating the Silver Shield and other mines. The Grand Jury make a report that they had examined into the matters referred to in the special charge relating to libelous allegations in the *Herald* of the 18th inst., and find that the allegations so made are utterly groundless, that the evidence adduced before the Grand Jury upon this special matter was uniformly an indication of the honesty, integrity and impartiality of the Chief Justice, that while they condemn the attack on the Chief Justice, yet the freedom of the press is so essential to the general welfare that they do not deem it advisable at this time to indict the editors of that paper.

Races at Toledo.

TOLEDO, October 30.—Toledo Driving Park Association races.—Fourth and last day. In the 2:50 race, postponed from yesterday, Sorrell Prince won two heats and the race. Winner's time 2:52, 2:51 and 2:50½.

The *Gazette* specials report them bad on the Cleveland, Sandusky & Columbus Railroad, being worst at Canton, Forest, Bellefontaine and Urbana. A high wind to-night increases the devastation and danger.

NEGLEY'S RECORD.

An Exhibit of Mr. Hopkins' Unfairness.

The Democratic Candidate Put Into a Very Small Hole.

PITTSBURGH, October 30, 1874.

To the Editors of the Pittsburgh Gazette:

In public life there is no sanctuary to be found where it is possible to escape *enmity* and *slander*, therefore I am always constrained to bear *patiently* such practices until the *worst* extremes are reached. This seems to be the case in the letters addressed to the public by Mr. J. H. Hopkins, and the use made of his ungenerous *mis-statement* by the *Daily Post*. I quote as follows:

"The Republican party *reduced* the Tariff." "More than this, the Democratic members of Congress from Pennsylvania, *with one exception, protested and voted* against the reduction of the above items. *They all* voted against the reduction on coal, when Mr. Negley's vote *is not recorded*, although he was present."

Mr. Hopkins uses the following language, which served the *text* for the foregoing:

"I read in the House Journal of 1871, that on March 7, in General Negley's presence, Mr. Farnsworth gave notice of his intention to introduce a joint resolution to repeal the duty upon coal. A few days afterward the resolution was brought to a vote, and amongst those recorded as *not voting* is the name of *James S. Negley*. It would not be much to promise equal vigilance when notified of a danger threatening so many constituents."

Messrs. Editors, turn to the *Congressional Globe* (a copy of which I leave with you) part 1st, first session, 42d Congress, March 13th, 1871, pages 81 and 82, and you will observe the following, record after the title: *Free Coal*. The motion to adjourn made by Mr. Dickey to defeat the bill was lost, 54 Democrats and 45 Republicans invoting the *negative*.

Mr. Marshall (Democrat) said: "I desire to state that my colleague, Mr. McNeely, is *necessarily* absent, and is paired with Mr. Negley, of Pennsylvania. If present on all these tariff questions, Mr. McNeely would have voted for and Mr. Negley *against* repeal."

On the passage of the bill only 51 Republicans voted for it (*none* of them hailing from Pennsylvania) while 79 Democrats voted for the repeal; *of these four were from Pennsylvania*, to wit: Messrs. Acker, Storm, Haldeman and Benjamin F. Meyers; Sherwood (Democrat) dodging. Not one of the six Democrats who voted in the negative exhibited the *slightest* zeal, much less a "*protest*." Accepting the assertion of Mr. Hopkins that he has *read the House Journal*, he has then with deliberate and *unenviable* cunning mangled the truth, and at the same time concealed the fact that my name was recorded in the negative according to the rules of the House; farther, that in this very act I was extending a courtesy to a Democratic member who was "*necessarily absent*," and who did not wish to be misrepresented by *an enemy*.

It was equally of questionable propriety to withhold the information that the majority of those who did vote for Free Coal were Democratic, a portion of whom being from his own State.

Messrs. Editors, I am moved by a reverence for the afflictions and mental distress of a perennial candidate for political honors, nevertheless I did not believe he would "*stoop to conquer*."

Talk about "*ways that are dark*" in political campaigns; why the *very infamy* of political trickery never compassed a design so *contemptible* and *foolish*, or so *humiliating* to a candidate for an honorable office.

While our attention is arrested by the proceedings of March 13, 1871, we find another significant chapter in the history of the gentleman's party as shown on the vote to pass a joint resolution affirming the power of Congress to declare the *Thirteenth*, *Fourteenth* and *Fifteenth* Articles of Amendment to have been duly *ratified*; 75 Democrats are recorded in the negative, but not *one* Republican.

On this same day of bad legislation we find a Democrat introducing a bill to pay $300,000 to the heirs of Gen. Lee for the Arlington estate, the place where there are *entombed* the remains of thousands who fell in defence of the laws; 74 Democrats voted for the bill, 115 Republicans against it.

Mr. Hopkins betrays the same unfairness in speaking of the reduction of the traiff on pig iron. The resolution offered by Mr. Cox (Free trade Democrat from New York) was supported by sixty-three Democrats and eleven Republicans. These same gentlemen voted for Mr. Hale's resolution to put coal and salt on the *free list* with like unanimity. When Schenck's Tariff bill was passed the negative vote was *Democratic*, with the exception of two Southern Republicans.

There is abundant warrant for saying that the Democratic party as represented in Congress in favor of *Free Trade* and the *Reciprocity Treaty* with Canada, certain members may speciously advocate a *strictly Revenue Tariff*, but they always vote for radical Free Traders for Speaker of the House.

It is the policy affirmed directly or indirectly in their party platform in every State. The most respectable organ of the party, the New York *World*, does not mask the party purpose, as may be judged from the following extract from its columns:

"Now, the Free Trade issue is at the front along with all the questions of taxation, currency, and fiscal reform. They have not to be brought to the front. They are there already and will not be put behind or aside. That is the fundamental fact which politicans have now to consider. On these issues they must take sides, and live or die, every Bezonian of them, according as they speak for sense or folly, for Free Trade or monopoly, for honest fixed weights and measures or a fluctuating currency, for a cheap and little-as-possible-burdensome taxation devised to get the needful revenue only, or a swindling tariff like the present, devised for making needful taxing the means of private enriching."

The Republican party of this Congressional district may consider itself sweetly revenged when the Democratic candidate comes over to the despised Nazarenes to beg their policy for the sake of office. A man who *politically* has always done wrong is not likely to do right even by *mistake*.

Not content with *garbled* gleanings from the *Congressional Record*, he has turned the light on another period of his life, a period in the worst days of his party, and when the gentleman was in the lead of the *worst* wing of it. Now, like the stricken Poet, he entreatingly says, "Take this shadow from off my door." "It was *not* true that I was a rebel sympathizer during the war."

Moved by the *infirmities of ambition*, perhaps *remorse*, he begs the loyal citizens to *forget* the days when their plow was left in the unturned sod, the scythe in the swarth, when from every vocation and pursuit in life men deserted their homes, wives, children, and friends, with *unselfish* devotion to defend and maintain the Government against its enemies at home and abroad. Oh! no, these memories are in tender keeping; they are enshrined in the heart of the good and loyal people of the land. It is well that Mr. Hopkins seeks to draw the veil of oblivion over the past and the evidence of disloyal utterances such as "the Union army is an armed rabble and mob whom I will not legalize by calling an army."

"The South was right in seceding—"

"The war is a failure."

"Despite the proclamation to whom it may concern, white men shall rule America."

I fail to find that during the four years of the bloody war that his lips were ever opened to cheer the Boys in Blue, or welcome with words of patriotism the men with empty sleeves or weary crutch, or that he discharged a single duty to his country those times of great earnestness.

Again, Mr. Hopkins has gravely assumed the responsibility of having printed and circulated the vaporings of Mr. Howard, attempting thereby to deceive the people into the belief that this was done in the interests of the author, knowing full well that defeat has *provoked* this unhappy gentleman to travel through every sign of the political zodiac until he has fallen under the influence of the scorpion, and is now *rancorous*, *waspish* and *peevish* with *resentment*, having been reduced to great mental *distress* he has made assertions without proof, declarations *without* honor, and arguments *without dignity*, an object of melancholy pity to his friends and one of derision to his enemies. One sees in him the protection of charity, for no other person of my acquaintance could so wantonly violate all the rules of consistency in society or politics, without being considered insane.

Yours, very truly,
JAS. S. NEGLEY.

Letter from Hon. John Scott.

HUNTINGDON, PA., October 27, 1874.

Hon. James S. Negley, Pittsburgh, Pa.:

DEAR SIR: Your letter of the 23d came in my absence. In reply to your inquiry as to your co-operation with me in defense of the coal interests or the tariff generally, I would say without any reference to the record, that upon every occasion when the question of tariff has been before the Finance Committee of the Senate, I have always had your action and cordial co-operation in behalf of our Pennsylvania interests, and I am somewhat surprised to learn from you that an attack is made upon you charging want of fidelity to those interests.

Yours, truly, JOHN SCOTT.

Letter from Hon. Wm. D. Kelley.

PHILADELPHIA, October 27, 1874.

Hon. James S. Negley:

DEAR SIR:—I have heard that your opponent charges you with want of fidelity to the principles of *protection*. If this be true, it should shake the confidence of his friends as well as citizens generally in his veracity. If you have been false in protection, I have been wanting in fidelity also, and no member of our delegation has been true to the industrial interests of our State. If any one thing has pre-eminently characterized your course in Congress it has been your devotion to the protective system and your desire to so stimulate our diversified industries as to secure steady work and remunerative wages to the laboring classes.

Assuring you that I would regard your defeat as a serious blow to the cause of protection, I remain yours, very truly,

WM. D. KELLEY.

THIRD TERM.

PRESIDENT GRANT'S VIEWS IN 1872.

He Does Not Seek a Nomination.

CINCINNATI, October 30.—The *Gazette* will publish to-morrow a letter from President Grant, by his permission given yesterday. The following is the explanation of the *Gazette* and the letter of the President:

In 1872, when it was found that Grant would be re-nominated, the report was circulated that in view of the many groundless reports as to his seeking the nomination he would decline to be a candidate. So positive were the reports upon this point that in May, 1872, we wrote him a private letter on the subject, to which a reply was received, which we are now permitted to print. This has nothing directly to do with the third term, but it shows how Grant felt with reference to the first and second terms, and will serve to disabuse the minds of those, if any there be, who honestly believe that the President is capable of scheming for a nomination in 1876.

The President's Letter.

EXECUTIVE MANSION, WASHINGTON, D.C., May 14, 1872.—Dear Sir: Your favor of the 10th., saying that the managers of the *Gazette* had decided to come out squarely for my nomination at Philadelphia on June 5th prox., when they were met by the report that I would either decline being a candidate before the Convention or would decline after the nomination, was received last night after leaving my office for the day. I caused a dispatch to be sent to you to the effect that the report was without any authority whatever. I am not in the habit of writing letters on political subjects, and especially have I never written a letter calculated to influence a convention as to who should be the candidates before it or selected by it. But your letter is of such a nature as to properly demand an answer, more particularly as you say you will treat my response as strictly confidential Now, I will say that I never proclaimed myself a candidate, either before the Convention which meets in Philadelphia this year, nor the Convention which met in Chicago four years ago. I have never written a line, done an act, nor, I believe I can say with truth, entertained a thought calculated to produce action by the Republican party in favor of my promotion over that of any other man in it who might be their choice. I do now as I did years ago, since I really believe that the interests of the whole country demand the success of the Republican party. If deemed advisable, I am willing to make any sacrifice to accomplish that success. I feel that I did make a sacrifice in giving up a high position so highly prized by me, one created for me by an appreciable public, for which act I can never thank them sufficiently. Now, if I can be of service to the party that chose me, then I shall render that service conscientiously and to the best of my ability. The personal sacrifice four years ago cannot be made now.

With great respect, I am your obedient servant.

(Signed) U. S. GRANT.

RELIGIOUS.

Protestant Episcopal Convention.

NEW YORK, October 30.—The General Convention of the Protestant Episcopal Church resumed business to-day immediately after the morning prayer, and voted to go into secret session at four o'clock, to consider the case of Bishop elect Orrick, of China.

Rev. Mr. Leids presented a report from the Board of Missions, which had been recommitted a few days ago for some modification. The resolution attached was modified so as to declare that no person should be employed by the Board of Missions who was not a member of the Protestant Episcopal Church. Adopted without debate.

Message No. 63, from the House of Bishops, in relation to the report of the Committee on Canons on the Ritual, concurring in the report, with an amendment striking out, in its specifications, the clauses relating to the use of incense, crucified elevation of the element of the Eucharist, etc., was referred to the Committee on Canons.

A report was read from the Committee on Amendments to the Constitution, to whom was referred a memorial from the diocese of Tennessee, asking for an amendment to the fifth section of the Constitution, which provides that no new diocese shall be formed until the General Convention shall have assurance that there is an adequate fund for the support of the Bishop.

The Committee recommended the adoption of the following resolution:

Resolved, That article five of the Constitution be amended by striking out the following words: "And such consent shall not be given by the General Convention until they have satisfactory assurance of suitable provision for the support of the Episcopate in the contemplated new diocese."

A long discussion followed, which was interrupted, and Rev. Dr. Meade, of Connecticut, on behalf of the Committee on Canons, to whom was referred the message from the House of Bishops in regard to Canon on Ritual, reported resolutions to the effect that the House of Deputies does not concur in message No. 63 from the House of Bishops, and asking for a Committee of Conference. This was adopted, and the chair appointed the Committee of Conference.

The discussion, by the Committee on Canons, on the amendment to Article fifth of the Constitution, was then resumed and continued at some length.

Message No. 66 from the House of Bishops did not concur with message No. 53 from the House of Deputies relating to conditional action of the Board of Missions, for the reason that the House did not consider itself competent to submit to the Board of Missions such additional powers.

Message 67 from the same House concurred in Message 48 of the House of Deputies, with the following amendment substituted for the last resolution:

Resolved, That the revised Hymnal now set forth is not to be regarded as a finality, consequently it may be revised whenever deemed desirable; but that it shall not be revised until it has been in actual use for a period of six years.

Message No. 68 informed the House of Deputies that the House of Bishops agreed to the appointment of a Committee of Conference on the Canon of Ritual.

The discussion on the adoption of an amendment to article 5 of the Constitution was continued, and an amendment to the resolution proposed by Mr. Altwater, of Minnesota, altering in the same article where it declares that "six self-supporting parishes to constitute a diocese," that the word "six" be changed to "ten," increasing the number of parishes by four. This was adopted, and a vote was then taken by the diocese and orders on the original resolution, which was adopted by the following result: Clerical vote—ayes, 33; nays, 5. Lay vote—ayes, 30; nays, 3.

A message from the House of Bishops authorized Dr. Perry, Secretary of the House of Deputies, to prepare a history of the Church in this country for the Centennial anniversary. This was concurred in.

The Committee on Amendments to the Constitution reported a proposition to insert at the end of article 5 the words "The General Convention may, on application of the Bishop of the diocese, setting forth that the territory is too large for due Episcopal supervision, set apart a portion of such diocesan territory, which shall thereupon be placed with or constitute said missionary jurisdiction."

A vote on the subject was taken by dioceses and orders, and the resolution was adopted.

The House then went into secret session over the confirmation of Rev. John T. Orrick, of Pennsylvania, as Missionary Bishop of China, and after a session lasting two hours, he was confirmed by: Clerical vote—ayes, 40; nays, 1; and lay vote—ayes, 32.

National Lutheran Evangelical Sunday School Convention.

JOHNSTOWN, PA., October 30.—The National Lutheran Evangelical Sunday School Convention, in session here, occupied the afternoon of yesterday in discussing the topics of Publication and Temperance. It was resolved to increase the capital stock of the Lutheran Publication House at Philadelphia one hundred thousand dollars, and recommended that all the Sunday schools of the Church encourage this institution and aid in sending forth its "Lesson Leaves," "Augsburg Teacher," and noted "Father Land" series of books. During last night's session the attendance was very large, many being unable to gain access to the church. The closing exercises of the Convention took place to-day, and consisted of short voluntary addresses, interspersed with singing and prayer. The interest manifested in the proceedings was very great, and it is confidently hoped that great good may result from the labors of the Convention.

In an interview, when questioned as to his opinion on the third term question, Mr. Medill said he did not believe that President Grant ever had the slightest idea of again becoming a candidate, and all the talk of "third term" originated and has its only foundation in the enterprise of newspapers desirous of filling their columns and creating a sensation.

The Eclipse had the machinery taken out of her in this port, and was being towed to Huron by the tug Yosmite. The wind was so strong that the tug, with her anchors out and a full head of steam, could not hold her ground, and to save herself was obliged to cut the tow loose. The Yosmite ran back to this port in safety.

Fire in a Mine.

SAN FRANCISCO, October 30.—At two o'clock this afternoon a fire broke out in the Belcher mine, Nevada, in the 850 feet level. Huge volumes of smoke poured out of the shaft. An alarm was promptly given, when the fire department turned out in force. Hundreds of women and children assembled, fearing husbands and fathers were perishing in the mine. They were, however, got out safely. Half an hour after the fire broke out flames burst out of the main shaft several hundred feet into the air, hurling fragments of rock in every direction, resembling a volcano in action. The timbers of the shaft to a depth of one thousand feet will be destroyed. At last accounts the fire was believed to be under control. No lives were lost. The origin of the fire is unknown.

BOARD OF HEALTH.

A Bone Boiling Nuisance to Be Suppressed—The National Health Association.

A regular meeting of the Board of Health was held yesterday afternoon in Municipal Hall. After getting down to business Health Officer Gray recommended the removal of Hoeveler & Co.'s bone boiling establishment at Negley's run. He thought such action would be very beneficial to the health of the city. Some time ago suit for maintaining a nuisance was entered against the proprietors, and they paid the fine imposed on them, promising also to remove the concern, but that has not yet been done. The stench that exudes from it is still as great as ever, and the residents in that neighborhood say that unless a removal is effected soon they will enter one suit after another until that object is accomplished. On motion of Dr. Arnholt, Messrs. Hoeveler & Co., were given until the first of April next to remove the establishment.

The Health Officer also read a communication from the American Health Association, containing a notification of its approaching meeting on November 10th, at Philadelphia. The Board is desired to send a representative to the session. The communication was received and on motion of Mr. Hays, Dr. Snively, Physician to the Board, and Health Officer Gray were elected as delegates.

Warrants were ordered to be drawn for the October salaries of the officers of the Board. The Health Officer reported the imposing of a fine of $20 on a man named Taylor for carrying on the business of night soiling without a permit. Approved.

On motion adjourned.

The New Postoffice.

It is conceded that the Sixth street site, adjacent to the Suspension Bridge, will be chosen for the above new government building. It is therefore settled, among other things, that T. Tobias, the Big 13, Sixth street Clothier, will have to remove his mammoth establishment, which recently has been fitted up in the most handsome style. But Mr. Tobias has determined that he will not remove his stock. Therefore the entire goods will be closed out before he is compelled to change his place of business. Prices will be made to suit everybody. Tobias was never excelled by any tailor in the city, either in material or style. It will be worth while to any one to call and examine his immense stock of men and boy's clothing.

Call upon Tobias, the Big 13, Sixth street, at once, and see the great $10 overcoat.

OSCEOLA, PA.

The Miners and the Italians—The Situation as it now Stands—The Old Miners Displaced by the Italians—The Foreigners not a Great Success at the Work.

Correspondence of the Pittsburgh Gazette.

OSCEOLA, October 30, 1874.

The coal miner's war has for the present subsided, and peace and quiet reigns. A number of Pittsburgh police were doing duty here at the Osceola coal works, and also at the upper works, some nine miles above here on the Youghiogheny, owned by Charles H. Armstrong, left for home last evening. Six of the employees at the Osceola works were commissioned by the Governor to act as special police, and their commissions were received to-day from Harrisburg. They are empowered to make an arrest in any part of the county, and the privileges conferred upon them are similar to those of a Philadelphia policeman. At the Osceola works a large number of French and German laborers are at work, having superceded the Italians. They understand very little English, and are compelled to make known their wants through an interpreter.

An agreement has been made between themselves and their employer in which they agree to work for one year. The price to be paid them is three cents a bushel, the coal to be run through the wide screen. They allow a deduction of ten per cent. of their wages each month, which amount will be refunded at the end of the year, providing they comply with their agreement. The old miners, many of whom were born and raised in this neighborhood feel wrathful at the treatment they have received. They claim that no notice was given by the Managers of the works of their intention of discharging the old hands and supplying their place with foreigners. Hence the miners are very indignant, and the bitterness which they feel toward the Operators and Italians may yet culminate in a riot on a larger scale than anything heretofore.

The Superintendent of the Osceola works yesterday notified the miners to vacate the tenant houses, belonging to the company, within fifteen days from this date, and also to present their claim for wages that may be due them. The residents of this place sympathize with the miners, and encourage them in their hostility to the "Armed Brigands, as they call the Italians. The operators claim that they are justified in what they have done, in consequence of the fact, that heretofore their business has been ruled by the miners, and they have proposed to manage it themselves, hire whom they please and discharge at their own option. At Armstrong's works, above Osceola, the Italians are nearly all at work, but will never make "wages" at coal digging. The business does not suit them. They are not calculated for the work, and the private opinion of those who are supposed to know, is that the Italians cannot hold out.

A girl aged nineteen, named Lizzie Burns, daughter of an humble coal miner residing near this place, was shot by an operator named Heath. The girl was gathering coal on Heath's premises, and refused to leave when requested. The people are very indignant over the affair, and the officers are now gone to arrest Heath. The girl, though not mortally wounded, may lose her right limb, as the shot entered the knee and passed down towards her foot.

One of the French miners at the Oceola works was seriously injured yesterday by slate falling upon him while at work in the pit.

SATURDAY, OCTOBER 31, 1874.

BONDS at Frankfort 97½.

PETROLEUM at Antwerp 24¼f.

GOLD closed in New York yesterday at 110¼.

THE election takes place on Tuesday next, and "The Last Word" appears in nearly all the weekly papers.

THE cotton crop in the province of Bombay, India, promises to be the largest ever recorded, and a fortnight in advance of last year.

EXTENSIVE FIRES are raging in the woods in portions of Ohio, Indiana and Kentucky, which threaten the destruction of a number of towns.

THE Milford (New Hampshire) Five Cent Savings Bank has suspended, with liabilities of $500,000, covered, it is believed, by assets.

GENERAL SHERMAN predicts, in his annual report, that the Indians will be whipped into thorough submission before the close of the year.

THE recent gale on the lakes was very severe in the vicinity of Detroit. Comparatively few vessels are supposed to have been out, but we may soon look for some disasters, nevertheless.

ADVICES from Venezuela report that the provinces of Cora and Barcelona have risen in revolution against President Guzman Blanco, the insurgents being under the lead of Polivia, Reiva and Vulido.

JUDGE BLODGETT, of the Illinois United States Circuit Court, has appointed Wm. H. Ferry receiver of the Rockford, Rock Island & St. Louis Railroad Company, and he will at once proceed to take possession of and run the road.

THOMAS P. OCHILTREE has been suspended from the office of Marshal of the Eastern District of Texas, and Lemuel D. Evans, Esq., appointed in his place. Mr. Evans was formerly a Judge in Texas and ex-member of Congress.

IN regard to the approaching election in New York, the Albany *Journal* announces that, "speaking upon trustworthy information from all sections of the State, and weighing well the force of our words, we send greeting to Republicans everywhere, and tell them in all sincerity that nothing is needed but that they shall go forward with pluck, vigor and confidence to ensure a decisive victory."

A PRIVATE letter has been received in Washington from Dockray, the American who was arrested by the Spanish authorities in Cuba, in which he describes his sufferings on shipboard, which are already known to the public. The letter is dated at Santander, and says he is sentenced to a penal colony in Africa, for a term of ten years, but that he hopes to be released before long, through the intervention of our Government.

A DEMOCRATIC victory means free trade, abolition of the protective tariff, repudiation of the debt, nullification of the Constitutional Amendments, and pensions for those who fought against the Union. It was a recreant Pennsylvanian, George M. Dallas, while presiding officer of the United States Senate, who defeated the tariff measure, by his casting vote. It is needless to say that Dallas was a Democrat. Are the people of Pennsylvania ready for these revolutionary changes?

THE election in Louisiana bids fair to be as unsatisfactory this year as on previous occasions. As the day approaches both parties indulge liberally in charges of false and illegal registration. The Conservatives have definitely refused to have a separate ballot box for the reception of the naturalized citizens in New Orleans, and stoutly rebut the assertion that the Second District Court of the city, which has for some time been industrially naturalizing "foreign-born" residents, has no legal authority to do so.

GENERAL LOGAN gives a more hopeful view of Republican prospects in Illinois than we had been led to expect from the defiant tone of the Democratic and Independent press of that State. He concedes the loss of two or three Republican Congressmen, but does not see any indications of any sweeping changes. As the proportion of Democratic gains assigned to Illinois to overcome the Republican majority in the House and give an opposition majority in the next Congress is at least six, the prospective loss of not more than three or even four Republican Congressmen in that State will be regarded by the Republicans as favorable for continued control of the House.

THE most peculiar of recent suicides is reported in California, where a Mr. Boston, of Santa Cruz, lately killed himself by strychnine. He was insane and made so by a singular condition of his business. He was a tanner and had a thousand cords of tan bark in the woods awaiting shipment, on much of which money had been advanced, and teams were even engaged to haul it to his tannery, when just then the owner of the land over which it must pass, absolutely refused under any circumstances to let it cross. All efforts at persuasion failing, Mr. Boston fell to brooding over his loss of money, the impossibility of running his tannery without the bark, the necessary discharge of his laborers, and their suffering, until he fairly lost his wits and departed, leaving behind a note saying he had taken strychnine in order "to rid the world of such a monster of iniquity as myself,—born to be a curse to myself and all that belongs to me." This must be a subject for cheerful contemplation by the amiable landholder who would not let the teams cross his property.

THE Cincinnati *Gazette*, referring to the agitation of the marriage question by a New York paper, says several correspondents are arguing for and against the possibility of a couple living happily and respectably on from twelve to eighteen hundred dollars a year. The last named sum will keep a bachelor quite well, but the wife whom he would like to marry would spend nearly that sum on herself alone. This is the negative side of the argument. Those who hold the opposite view do not actually indulge in the love-in-a-cottage strain so common in former days. They maintain, however, that there are many thoroughly intelligent and refined women who are willing to begin their married life in a very economical way and that way does not necessarily involve any sacrifice of the real amenities of life. If show and self-indulgence are the main objects of a man with eighteen hundred a year, or are those of the woman whom he wants to marry, they had better remain single. If, however, they are desirous to be helps to each other, they will soon discover that a little money can be made to go a great ways. In Canada, under the old French regime, marriage was encouraged by the Government. Premiums were paid to the parents of large families of children, and fathers who did not marry their sons at twenty and their daughters at sixteen years of age were heavily fined. This was one extreme, but people approximate the opposite one when they conclude that extravagance is too valuable to be surrendered for the self-denial and frugality which are the accompaniments of the happiness of wedded life.

LET REASON CONTROL.

This is probably the last opportunity we shall have to calmly address our readers touching their duty in the pending contest. On Monday the excitement that attends the preliminary preparations for the election will present calm reading. We have already stated, and it is clearly seen that the issues generally involved, are those of the Currency and Tariff. The teaching of the Democratic party on these subjects we have clearly shown. They do not deny it. They are for Repudiation and Free Trade. Grant that Mr. Hopkins and Mr. Cochran are not with their party on this subject,—we have the question left us, are they, away from their party better worth voting for than Republicans, with their party? If the Democratic nominees certify to the correctness of the Republican doctrines, we add to their certificate that the Republican candidates are also good. Then let us not hesitate, with this double assurance to vote for them. But Hopkins and Cochran could not, were they elected to Congress, avoid, at many times, voting with their party on the Tariff. Would they be at all likely to vote against their party on the Speakership? Yet this would involve the Tariff directly, and far more dangerously than any direct vote they could give on that question. Elect a Free Trade Speaker of the House,—and their votes might do it,—and all the Committees will be formed in the interest of Free Trade. We hope this will be remembered, and the votes cast accordingly.

While the Republican State ticket is not imperilled, we hope our friends will not hesitate to fully cast their votes for it. In the country districts, every possible effort is being made, by false statement and prejudicing appeals, to secure votes for the Democratic State ticket. While we are not in the habit of making personal comparisons, we have no hesitancy in saying that the Republican nominees on the State ticket are better now, in every sense, than are those put in nomination by the Democracy. Let them, then, be triumphantly elected.

MR. HOPKINS' CANDOR.

The Democratic candidate for Congress in the Twenty-second District desires to be regarded as a fair-minded gentleman, who perhaps is not averse to the attractions of official distinction, but is yet one who would not seek to grasp the coveted prize by dishonorable means. He has indeed been exceedingly sensitive upon this point, and has been assiduously endeavoring to acquire a reputation as a politician in whom there is no guile—a sort of apostle of honor in politics. In the pursuance of this design—commendable certainly if it was sincerely pursued—he has affected to discuss the issues of the campaign upon the high standard of "fair play for all," in contradistinction to tactics of misrepresentation and personal abuse; and in his assumption of the virtues of honesty and candor he has been highly successful, but the practice seems to have fallen lamentably short of the profession. The illustration and proof of his failure is given in the statements he has printed, and made from the public platform, as an onslaught on the Tariff record of our present and prospective efficient Representative, Gen. Negley.

Elsewhere in our columns will be found a letter from General Negley, in which the matter is referred to in detail, and the tergiversations of the honorable candidate clearly shown, making it only pertinent for us here to re-state the leading point.

Mr. Hopkins, in his letters and statements referred to, cites the fact that Gen. Negley did not vote against the repeal of the duty on coal, and quotes from the *Globe* an extract to prove his assertion. He does not quote Gen. Negley as voting *for* the repeal, but leaves the inference that through negligence, or a failure to appreciate the importance of the matter, he failed to vote against it.

Now, generally, when a man tells but half the truth, especially when that half misleads, and conveys a false impression, the verdict is that he is guilty of falsehood; and this is precisely the case here. The gentleman of the honorable pretensions, with the full facts before him, chose to quote only a portion of the record. Why did he not give the entire case? The facts were on record to show that General Negley had "paired off" with Representative McNeely, who was called home by sickness, and that when this resolution for the repeal of the tax on coal was "sprung" on the House, he could not then violate that obligation. He was thus compelled in honor to remain quiet so far as his vote went. But that his personal influence and feeling was on the right side of the tariff question, his previous votes and work, and his subsequent maintenance of the same consistent course of advocacy of the tariff, abundantly proved. Senator John Scott and Hon. Wm. D. Kelley have borne testimony to this fact, and the record of the House gives all the further proof that any fair-minded man would desire. The proofs are so abundant that "he who runs may read," provided he reads not in the honorable (!) style of Mr. Hopkins, but takes in the whole record. By the way, though, since Mr. Hopkins has directed the attention of the people to "records," it might be within the province of "fair play" to direct a little attention to the contrast between a man who was out in the field fighting for his country's life, while another was at home bewailing the unconstitutionality of all efforts to preserve the very government of which he now so ardently desires to be an official part. How meet it would be for the loyal soldier to step aside and give place to the luxurious civilian who was so warm in sympathy for those who exerted all their energies in attempting to destroy that for which he now expresses such a veneration!

The main question, however, evoked by this specimen of candor on the part of Mr. Hopkins is this: Given, a man profuse in professions of the great righteousness of fair play, but whose notions of fair play consist in garbled extracts conveying a false impression of his opponents,—given, such a man, what is the value of his professions of honorable canvassing, or what credit can be given to any political utterance he may make? If Mr. Hopkins can so grossly misrepresent in one important instance, and do so with such an evident intention to deceive, what do his professions of political honesty amount to, or what confidence can be reposed in a man who, by his political acts, so clearly belies his political professions? We rather think the voters of the Twenty-second District will not be hoodwinked by such a mean subterfuge as that of which this apostle of honor has been convicted.

Mr. Hopkins probably from the force of old habits, seems to have forgotten, in making this bid for support outside his own partizans, that he was addressing men now, who could read and think. They will not forget it, however, and for this insult to their common sense, this dishonorable attack upon an opponent, who has never treated him discourteously, we have a confidence they will give him such a rebuke as even he has never yet experienced in the long course of his perennial political aspirations.

MR. BASS, the great beer manufacturer and a member of the British Parliament, has declined to sanction the erection of a public statue in his honor, on the sensible ground that a statue of a living man would be somewhat out of place in a locality which the original might be expected frequently to revisit.

AGAIN the President makers are at work, and Speaker Blaine, Pendleton, Butler, Bill Allen, William Orton, Joseph Medill, Sam. Tilden, Church, Governor McEnery, General Hawley, and a host of lesser lights alternately shine and disappear in the Presidential zenith. The boys must have their fun, you know.

IT is said that there were last year 91,000 children between the ages of five and twenty years in Vermont, and that only about 72,000 actually attended schools. The total cost of schools was $737,000. Vermont having no school fund, the whole of this sum had to be raised by taxation. Vermont gives her children only twenty weeks schooling.

THE number of those attending primary schools in Egypt is 90,000, which in a population of 5,250,000 represents a proportion of 17 per 1,000, a proportion smaller than in any European country except Russia. THE dispute between the municipality and the Canton of Geneva as to the succession duty on the Duke of Brunswick's bequest has been finally settled. The municipality agree to hand over 2,400,000 francs to the Canton, the latter waiving the legal question as to the liability of municipalities to succession duty.

THERE is a terrible fire raging in the woods just south of Hartford City, Ind., fully four miles in length. The woods and fields between Union City and Greenville, Ohio, are on fire in many places, and hundreds of acres are being covered with the flames. In the forests, flames have climbed to the tops of the tallest trees, and present a terrible and grand spectacle at night. Forest fires are also raging in the vicinity of Oxford, Logan, Crestline, New Lexington, Cambridge, Kenton, Ironton, Bellefontaine and Delaware, Ohio; Rushville, Indiana; and Russell, Kentucky. There is a great scarcity of water at all points.

THE Baltimore *Sun* boasts of a jackass, which is on exhibition at the Frederick Fair, and which can say "why not?" quite distinctly. The creature walked into a bar-room, in the most jackassical manner, and was asked to take a drink, when he plainly responded, "Why not?" and it is to be supposed that he got his liquor. After that performance, the sum of $500 was offered and refused for the animal. This may be something to brag about in Maryland; but the phenomenon is not an unusual one in St. Louis. There are plenty of jackasses here, who find it the easiest thing in the world to answer "why not?" when they are asked to drink, and nobody would offer five cents for a cart-load of them.—*St. Louis Globe.*

Sure Preventive to the Freezing of Water Pipes and Accidents of Similar Nature to Water Closets.

We beg leave to offer to the public our

Patent Automatic Water Closet,

which is Anti-freezing and Inodorous. It is the most durable Closet in the market, for the following reasons: It will not freeze. It is strictly self-acting. It does not cause any re-acting and bursting of pipes. It is free from all obnoxious odors, and therefore will improve the sanitary condition of our cities. It has no valves to get out of repair and leak.

With our valuable improvement obnoxious cesspools in yards are dispensed with, as direct communication is made with the sewer pipe.

The public are invited to call at our salesroom, and examine this valuable improvement in operation, where its great advantages can be seen at a glance, or send for circular containing full particulars.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, October 31, 1873.

The condition of the local money market remains about as last quoted. Money rules easy here and also in the leading financial and business centres throughout the country. There is no lack of money in the country; the banks are full of it. But there is a general indisposition to risk it on the part of owners, owing to the tendency to shrinkage and a universal feeling of distrust engendered by former experiences. This is the conclusion which has been forcing itself upon the minds of thoughtful men for the past few months, and the only policy which seems to warrant safety is to retrench whenever retrenchment is possible, to cut down all the needless expenses, and to economize even in matters where a year or two ago economy was not thought of. Under the former dispensation, there was little risk in carrying real estate or large stocks of merchandise, but in these times the weight of too much real estate has proven many a man's destruction. But the business horizon is brightening, and there is absolutely no danger if common sense is exercised, an immediate and sweeping reduction made in expenses, and all sail taken in that is not absolutely necessary to catch the wind. Many of our large establishments have already taken in the situation, and are conducting their business accordingly. It behooves every firm and individual, desirous of riding the financial waters of the time, to follow the example set. It rests with the business men of the country whether we shall have good times or bad times. The lessons of the past ought to serve for their present guidance, and, if they are heeded and followed, the return of a permanent business prosperity to the country is assured at an early day.

Stocks and real estate continue quiet, without noticeable change in prices.

—In an article on holding back wheat, the Chicago *Inter-Ocean* says: It is amusing to note the amount of sage advice the Eastern newspapers have for the Western farmers, whom they say are "holding back their wheat." Any amount of misfortune is promised the said farmers by these "Job's comforters" of the Eastern cities as a recompense for their contumacy in not seeing the profit in selling wheat at 50c per bushel at the country stations in Minnesota and Western Iowa. There is not a single prominent newspaper in any of the Eastern cities that has not insisted that it was egregious folly on the part of the farmers that they have not, and do not yet, send their wheat all to market while lake freights are low. These Eastern newspapers, however, seem to take in only half of the problem. It is well known that the stock of wheat now in New York is four or five times greater than at this time last year, and several of the prominent Eastern journals, who advise the farmers to hurry their wheat to market, admit the probability that if the wheat does come forward in anything like the usual volume until the close of lake navigation, New York City would hold by the 1st of December the extraordinary stock of over 3,000,000 bushels, against the usual winter average of less than 1,500,000 bushels. What would be the effect of this immense accumulation in so unusual a place, and with the limited storage capacity of New York? There can be no question that in the present conditon of the market it would depress the price of breadstuffs so much that the loss to all holders of wheat in the cities would be so enormous that it would cause many failures, even if it did not cause something of a panic. If the farmers of the West should act on the advice of these Eastern newspapers, and attempt to forestall a further decline in the price of wheat by rushing it to market now, they would only force a sudden and much greater decline than is at all likely to occur otherwise.

—With a view to prevent frauds in the alteration of the number of shares represented in certificates of stock, which alteration is known under the technical name of "raising" the Pennsylvania Railroad Company have just adopted a new system regulating the issue of certificates of its stock, to take effect on and after November 16, 1874. The main features of this new system are:

1. All certificates shall have the number of shares thereby represented engraved in letter form in the body of the certificate and the corresponding numeral in figures engraved in the upper right hand corner.

2. That a separate certificate shall be issued for each amount of shares from one to ten shares inclusive, and for each multiple of ten shares up to and including one hundred shares.

3. That no single certificate shall be issued for an amount exceeding one hundred shares.

4. That the said certificates to be issued shall be numbered commencing with number one and then be numbered consecutively.

Thus, for instance, a purchaser of seven shares would receive one certificate; for seventy-seven shares he would receive one certificate for seventy shares and one certificate for seven shares; for one hundred and seventy-seven shares he would receive three certificates, one for one hundred, one for seventy and one for seven shares. The officers of the company think this plan, if carefully observed, will effectually stop the raising of certificates of stock hereafter, and, indeed, it has every appearance of that result. The company has nineteen different certificates that it uses, viz., from 1 to 10, and 20, 30, 40, 50, and so on to 100. The ink used in the engraving of the number of shares in each certificate cannot be removed with any known acid.

NEW YORK, October 30, 1874.

Money 2@2½; prime mercantile paper: 5@7 for short, and long dates 8@10 for good single names. Sterling was firm at 484@484½ for sixty days and 487½@487¾ for sight. The dry goods imports for the week were $1,090,354. The customs receipts were $437,000. Gold was dull at 110¼. The borrowing rates were 2@4 per annum, and 1-64 per day. At the close loans were made flat. The Assistant Treasurer disbursed $351,000. The clearings were $19,000,000. Governments were dull and firm. State bonds were strong and higher, notably in Missouris and Tennessees. Railroad bonds were dull and a little lower. The stock market advanced ⅛@¾ per cent. in early dealings, but afterwards became weak and declined ¼ to 1¼ per cent. The extreme decline was in Erie, which fell off from 28 7-8 to 27¾. Wabash declined from 29¾ to 29, and Western Union from 79 3-8 to 79. At the second board there was a recovery of ⅛ to ¼ from the lowest point. During the last hour of business the market was weak and lower on a reported mercantile failure, but just previous to the close prices rallied ¼ to 7-8 per cent., when the failure was denied. The greatest advance was in New York Central, which rose from 100 7-8 to 101 3-4, on a small business. Rock Island advanced from 96 3-4 to 97 3-8, and Western Union from 78 7-8 to 79 3-8. The improvement in the balance of the list was 1-8 to 3-8 per cent. The decline in Wabash was caused by a report from Toledo that the company were in arrears to their employes and that the latter had waited on the President and demanded their pay. The market closed active and strong. It is reported that John Duff has sold his stock in the Atlantic & Pacific Telegraph Company to the Union Pacific Railway, and resigned as President of the company. Mr. L. P. Morton has also resigned as trustee in the Atlantic & Pacific. The stock sales were 110,000 shares, of which 28,000 were Western Union, 9,000 Pacific Mail, 22,000 Erie, 18,000 Lake Shore, 11,000 Union Pacific, and 11,000 Wabash.

Condition of the Markets at Home and Abroad.

PITTSBURGH DAILY MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, Oct. 30, 1874.

The general markets continue dull, at least they are so reported be our merchants, and while there is a very fair business in the aggregate, it is not up to what it usually is or should be at this season of the year. The was a full attendance at the Corn Exchange this morning and the offering were large, but buyers, as a rule, took hold sparingly, being strongly attached to the hand-to-mouth policy—to buy only for immediate wants. The grocery trade continues quiet and devoid of anything especially important. Flour, also, is dull and neglected. Produce continues slow, and with the exception of Eggs, which are in light supply, prices are weak and tending downward. The hog product is rather firmer in sympathy with the advices from the west, our main source of supply, but prices remain without quotable change.

APPLES—The demand continues light and prices remain unchanged, ranging from $1.50 to $2.50 per barrel.

APPLE BUTTER—In kegs, 60@65 ₩ gallon.

BUCKWHEAT FLOUR—4¼@4½c ₩ lb.

BEANS—$2@2.50 per bushel.

BUTTER—There is no improvement to note in the demand, and with stocks steadily accumulating and a stronger disposition manifested to realize, prices are weak and drooping; prime to choice roll, 27@30c.

CHEESE—Steady but unchanged; prime Ohio Factory, 14½@17; New York ditto, 17½@18.

CRANBERRIES—$10@12 ₩ bbl, as to quality.

CHESTNUTS—The arrivals have dropped off somewhat within the past few days, and prices are a shade better, $2.75@3.25 ₩ bushel.

EGGS—The market is firmer for fresh and prices are advancing; sales reported to-day at 24@25.

FLOUR—Dull with a drooping tendency; Spring wheat flour, $5.75@6 for Wisconsins, and $6.25@6.50 for Minnesotas; winters at $6@6.25 for red, and $6.75@7 for white. Rye Flour, $5.75.

GROCERIES—Coffee—The supply of Rio in first hands in the distributing markets in the United States is the smallest which has been known for a considerable time past. There is scarcely any at New York, very little in Baltimore, and in all the Southern ports the aggregate is only 15,500 bags, while at New Orleans there is none at all. At the last sale held in Amsterdam, by the Netherlands Trading Company, on the 21st instant, a sufficient advance was paid to cause quite a "flurry," both there and in London, and was the means of strengthening the New York market considerably. Prices of Coffee throughout the Continent rule quite firm. Sugars continue offish, but there has been no quotable change in prices here as yet. Molasses, Syrups and Rice quiet and nominally unchanged.

GRAIN—The market for Wheat continues weak, although there is a fair business, and prices are still maintained; Penna and Ohio red, $1.12@1.15; white at $1.18@1.20. The Oat market is firmer in tone, in sympathy with the advices from Chicago, but prices are without quotable change, ranging from 57 to 59, free in elevator, although some dealers were holding prime white to-day at 60. New Ear Corn is irregular, but may be fairly quoted at 60 to 62 cents (70 lbs to the bushel,) and new Shelled at 70@72, as to quality. Old Shelled is dull, although the supply on this market is light; quotable at 82@84. Rye is quiet and nominal at $1@1.05.

There was a full attendance at the Corn Exchange to-day, and several sales were effected, as follows:

1 car new ear corn on track at	65
2 cars new shelled, in sacks, at	73
1 car old shelled high mixed on track at	83
1 car old shelled high mixed, in elevator	82
2 cars white oats, in elevator	58½
2 cars mixed oats, in elevator, at	58½
4 car rye, in elevator, at	$1 00

HAY—The market for baled is firmer, in consequence of the diminished receipts recently, but prices, as yet, are not quotably higher; we continue to quote at $18 to $21 ₩ ton, ar to quality and condition.

PROVISIONS—The market for the hog product is rather firmer, in sympathy with the advices from Chicago, but there is no important change to note in prices, which will be found annexed:

SEEDS—There is not enough doing in any kind of Seed to establish quotations.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, Oct. 30, 1874.

The Crude market continues exceedingly dull and depressed, and prices have further declined; quoted to-day at 70 cents ₩ bbl, at Parker, which is the lowest point it has touched for several months. The recent numerous strikes have, as might be expected, had a very depressing influence, increasing the already too large production, and then the fact that the consumption is steadily falling off, has not been without its effect in the same direction. As regards refined there does not appear to be much inquiry at any price just now, and the tendency continues downward; Baltimore and Philadelphia delivery quoted at 10¼, the lowest point it has touched yet. There is still considerable oil going forward, mainly by the Connellsville Railroad, but it is being placed on contracts made some time ago. The indications are that business is destined to be slow during the balance of the year, as it usually is during the time in question, and there are various reasons why it should be more so this year than ordinarily.

The Barrel trade continues dull and unchanged; countries, $1.20; city make, $1.40.

Wool.

Harding, Gray & Dewey, of Boston, write as follows: There is an impression abroad that our market is overstocked with wool, particularly fine fleeces, but we are satisfied that the stock of domestic here is not larger now than at this time last year and in other markets is much smaller. Since the first of July we have been large receivers, but the sales direct to manufacturers, during that time, have been correspondingly large. There is a very good assortment of fine fleeces, but considerable of this description is held under limits, and will not be offered for the present. Medium fleeces and combing and delaine selections are scarce and wanted at full current rates. In these grades there has been no concession, and, with present small stocks, not likely to be. Good lines of super and X pulled are very scarce, and a choice lot of X is difficult to find. The supply of Spring California has been much broken by large purchases during the past three months, and our receipts of new fall have as yet been very light. Our stock of fine foreign wool is very small, compared with some years past, and additional supplies cannot be placed there from any point except at a loss. Telegraphic advices from Australia report that market very firm.

PITTSBURGH IRON MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, Oct. 30, 1874.

PIG IRON.

There is nothing new or important to record in regard to this important article; business continues dull, the demand is confined entirely to supplying immediate wants, as the majority of the mills are buying from week to week, and while the general tone and position of the market continues in buyers favor, there has been no quotable change in prices since the date of our last review. It is worthy of notice that the receipts are keeping up well, especially from the west, and, notwithstanding the mills, as a rule, are carrying no more stock than is absolutely necessary, the consumption is not so much behind what it ordinarily is at this season of the year; the best evidence of this is that the mills, with one or two exceptions, are all running, and the most of them are working double turn. No. 1 Foundry Iron may be quoted at $28@29; No. 2, $26@27; Gray Forge $25@25½. Foundry Irons are very dull, and prices, if we mistake not, are lower now than they have been at any time since the panic. Following sales were reported:

MANUFACTURED IRON.

The market for all kinds of finished Irons continues fairly active, and while there is considerable complaining, as there nearly always is, it is more in regard to prices, which, it is contended, have been cut down lower than there was any necessity for, than a scarcity of orders. As we have already stated, the mills, with one or two exceptions, have been running all season, the majority of them double turn, and there is little or no doubt entertained but what they will continue to have about all they can do during the balance of the year. Quotation may be fairly given, that is for anything like a round lot, on a basis of 2.5@2.6 for bars, regular time, with the usual discount for cash.

NAILS.

There is no improvement to note in the Nail trade, and, furthermore, none is expected until after the close of the year, when jobbers commence to send in their orders for the spring trade. The majority of the factories here have either stopped altogether or reduced their production very materially, as manufacturers do not want to accumulate any stock. Prices, however, are still maintained, $3.35, sixty days, with the usual discount of two per cent. for cash.

GEORGE H. ROHE,
Sergeant, Signal Service, U. S. A.

The weather has turned quite cold, and the indications last evening were more favorable for snow than rain. There is but little hope of water now until after there has been a fall of snow.

Commodore Kountz has returned from St. Louis where he was called to look after his interests.

Mr. A. C. McConnell, chief clerk of the Cincinnati packet, Arlington, returned home the other day, his boat having been obliged to lay up at Cincinnati to wait for water.

A "Boatmen's Association" has been fully organized here, constitution by-laws, etc. adopted and officers elected, as follows: President, Captain J. T. Stockdale; Vice-President, Captain R. C. Gray; Secretary and Treasurer, Captain I. R. Whittaker. Directors—N. J. Bigley, Marshal McDonald, J. S. Adams, J. H. Dunlap and Captain C. L. Brennan. The main object of the association is to avoid the ruinous "cutting" that has been so common of late years, have boats load in turn and enable them to make some money, and there is no question but what an organization of this kind was very badly needed.

—Friday's Cincinnati *Commercial* says:—Captain J. P. Dunlevy, of the Esperanza, left for Pittsburgh last night. Captain John B. Conway and James Rees, Jr., left for the same point Wednesday night....The Etna, with her tow, struck at Ten-mile yesterday. During the heavy gale, the Andes and C. J. Huntington were blown on shore at Eeast End Garden at noon yesterday. The City of Portsmouth was sent for, and pulled them out again....The suit recently decided against the owners of the St. Charles at Pittsburgh for $1,158.33 1-3, was for a circus outfit destroyed by fire, when the boat burned at the Cincinnati wharf. Joseph Smith, Jr., of Cincinnati, is one of the St. Charles' owners....The Peninah, it is claimed, has cleared $100,000 in the past three years on the Upper Missouri. Limited tonnage and high rates are the reasons....Commodore Kountz says the New Orleans Kountz line pays pilots $150 per month, and has not paid more during the entire season....The stern-wheel steamer Shoo-Fly was burned at Charleston, West Virgina, at 4 o'clock Thursday morning. The boat is a total loss. It is not known how the fire originated. Loss $5,000; no insurance. She was owned in Charleston....The new steamboat V. B. Horton, now approaching completion, under the contract of M. Wise & Co., of Ironton, will be ready for trial next Monday. Captain Day and others are her owners, and she will run in the Ravenswood and Pomeroy trade. The V. B. Horton, when finished, will be one of the finest and most convenient of the many small crafts that now ply on the Upper Ohio. Her length is 110 feet, 20 feet beam, with 3½ feet hold, and a carrying capacity of 125 tons. She is a stern-wheeler, her machinery being from the Oil City. Her namesake is a prominent citizen of Pomeroy.

—Yesterday's Cincinnati *Gazette* says:—The sunken Anna is being wrecked where she lies......Wharfage collection for the week ending last night amounted to $61.80......Half the Nashville sold for $4,250. She will enter the Tennessee River trade from here......The officers of the Jas. D. Parker report a log raft aground at Hoagland. Also, that when the Parker left Madison, Wednesday, the Lookout was gathering up a tow of empty barges to come up the river. She did not go to Louisville. ......The two-boat monopoly below New Orleans has been checkmated. The new company owns a telegraph line of its own at a cost of $20,000, and owns the following side-wheel steamers: Charles Chamberlain, Rochester, Rio Grande, and Ocean, beside the Admiral and a propeller. The old association charged $1.25 per ton inward and to the city; outward 15c, for a ship drawing less than 16 feet of water, 25c, from 16 to 18, and never less than 50c, over 18 feet. Over 19 feet it sometimes cost a vessel from $800 to $1,000 to get to sea from New Orleans. The present rate of tonnage by the new line is one dollar per ton in and out, making a saving of at least $1,000 on a 1,200 ton ship. During last week the old association has been cutting under in prices. The ship Norris was bargained for at forty-five cents, up and down. Tom. McClellan is Superintendent of the new line.

—The Shreveport *Times*, of the 25th, says: "We learned yesterday that the work of finishing the removal of the Red river raft has been turned over to Major William H. H. Benyaurd, U. S. Engineer Corps, with headquarters at Vicksburg, Miss. Major Howell, under whose supervision the work has been done so far, has more on his hands than he can well attend to, and petitioned to be relieved of the Red River raft. A transfer of the property belonging to the appropriation took place yesterday, and Major Howell left last night on the train for New Orleans. Previous to this transfer, Majors Howells and Benyaurd had visited, in the steamer Sterling, the whole length of the works on the raft, and were much pleased at the progress made. By the middle of December the banks of the river on both sides will be cleared of timber, and the old raft so effectually cleared out that navigation will be as good as it is below Shreveport. Captain Tennyson will continue in charge of the steamer Sterling and a portion of the works."

—The Russellville (Ark.) *Tribune* of the 22d says: "On Tuesday morning at about daylight, an explosion occurred on the steamer Maumelle, lying at the wharf at Dardanelle. The accident scalded Chas. Dean to death, injured seriously Dave Fisher, and Riley Van Winkle jumped into the river and was drowned. Steam was being raised, it seems, preparatory to starting out, and the engineer had on about one hundred pounds, as indicated by the steam guage, when one of the pipes bursted. Several persons were in the engine room and on the lower deck when the accident occurred. One man, a hand on the boat was blown into the river and drowned. Several others, we learn, were badly scalded and not expected to live. One person, an officer of the boat, only saved himself by dropping down flat as he saw what was taking place. The boat is a new one. The bursted pipe will soon be repaired."

—Who ever heard of extorting wharfage from a balloon? When Donaldson's balloon descended so gracefully Tuesday evening, near New Richmond, with a party of ladies and gentlemen from this city, it first struck the earth in a clover field belonging to some man, who, living near the bank of a navigable river, had heard that it was customary to charge wharfage for the landing of water craft, and he, therefore, on the supposition that an air-ship was in some sense, perhaps because it might light in the river, a water craft, charged Mr. Donaldson five dollars. We wish we could remember his name that the papers might publish it.—*Cin. Gazette*.

—The St. Louis *Dispatch* says: Messrs. Bond and Bird of Brooklyn, are laying the keel of a stern-wheel Mississippi steamboat at their yard, foot of India street. She will be 165 feet keel, 7 feet hold, 34 feet beam, and is intended for use on the Magdalene River in South America, by the owner, Captain H. G. Somers. She is being constructed under the supervision of Franklin Buckles. Her engine is being built at Cincinnati, and will be shipped to New York when completed.

—The Gallipolis *Bulletin* of Wednesday says:—The steamer West Virginia, bought by the Kanawha Valley Packet Company, for the Gallipolis and Kanawha River trade, is now at Brownsville, on the Monongahela River, waiting Lock No. 4 on that river to be repaired. Captain Beckert says she will be here next week ready for business on the Kanawha River.

—A Bismarck dispatch under date of 28th says:—The Western has arrived from Fort Peck. Near that point she was fired into by Indians, and the Silver Lake was also fired into as she passed. Several bullets passed through the cabin, and Orlando Moore, a passenger on the Western was slightly wounded. There are large numbers of hostile Indians along the upper river.

—The A. J. Baker and tow took 6,000 barrels of cement at Tarascon mills at Louisville on Wednesday, and left for St. Louis.

HOME NEWS.

A $300 Burglary in Allegheny.

About 11 o'clock on Thursday night burglars entered the residence of Mrs. Toner, No. 115 South Canal street, Allegheny, and stole about $300 worth of clothing and other articles. They gained an entrance by forcing open a window in the rear of the house. There is no clue to the thieves.

Struck by a Train.

About three o'clock yesterday afternoon Joseph Fink, who was considerably intoxicated, seated himself on the edge of the freight platform on Woods Run, Allegheny. Soon after the Pittsburgh and Cleveland express came along, and the steps of one of the cars struck him on the head, inflicting a severe wound. He was brought to the Federal street depot and Dr. Buchanan summoned and his injuries attended to. His injuries are not of a serious nature.

Steal or Starve.

Yesterday afternoon a man named Frank McCune entered Adolph Ehler's saloon, on Chestnut street, Allegheny, and stole an overcoat belonging to Mr. Ehlers. He was arrested at the door, and last evening Mayor Fleming sentenced him to ninety days at the Work House, for vagrancy, as Mr. Ehlers declined to prosecute him, as he had returned the coat, and he admitted that he had no place to stay and no work to do.

Little Girl Wounded.

A little girl named Lizzie Burns was shot in the leg on Thursday, at Shaner's station, on the Connellsville railroad, and severely wounded. She was taking coal, it is said, from a car that was standing on the track, when Capt. Heath, of the firm of Heath & White, ordered her to stop. She paid no heed to him, when, it is alleged, he drew a revolver and firing, wounded her in the leg. Information was made before 'Squire Greenawalt, and Captain Heath was arrested and gave bail for Court in the sum of $1,000.

Steamboatmen's Association—Organization Yesterday.

Yesterday afternoon a meeting of steamboatmen was held at the office of Captain Marshal McDonald, on Water street, below Market, with the object of organizing an association which shall have for its purpose the advancement of the interests of river men. After a general discussion the Boatmen's Association of Pittsburgh was organized by electing the following officers for the ensuing year

President; Capt. J. T. Stockdale. Vice President, R. C. Gray. Secretary and Treasurer, J. R. Whitaker.

Directors—Captain's N. J. Bigley, M. McDonald, J. H. Dunlap, C. L. Brennan and J. S. Adams.

That Dog Case.

Mr. John Megraw, of Allegheny, had a hearing yesterday evening before acting Mayor McMasters on a charge of cruelty to animals, preferred by Mr. E. N. Ladley, the agent of the S. P. C. A. The suit was entered on information received, which was to the effect that Mr. Megraw ended a dog fight by picking one of the canines up by its hind legs and beating its brains out on the curbstone. At the hearing Mr. Megraw explained that it was not his intention to be cruel but to kill the dog outright, and that if it lived after he got through it was no fault of his. The Mayor decided that to kill was not an act of cruelty, and the defendant was accordingly discharged.

RAILROAD ACCIDENT.

Conductor Killed and Several Workmen Injured.

Yesterday afternoon a construction train on the Bennett branch of the Allegheny Valley railroad struck a cow, and the cars were thrown from the track and all jammed up together. In addition to the destruction of rolling stock the accident was attended with other and more serious results. The conductor of the train, a gentleman named Gleason, was instantly killed, and several of the workmen, whose names it was impossible to learn, were considerably injured but not seriously enough to endanger their lives.

SHOT.

Pistol Cartridges as Fuel—The Experiment a Failure.

Mrs. Slattery, who resides on North alley, near Arch street, Allegheny, met with a singular accident yesterday morning. While putting her house in order she picked up a little box in which there were pieces of rags, paper, &c., and threw box and all into the fire. Soon after, while standing near the fireplace, a pistol cartridge that had been in the box, exploded, and the copper part of it flew out and lodged in her cheek, inflicting a severe wound. Dr. Buchanan was at once summoned, extracted the cartridge case, and dressed the wound, which was very painful. Happily, however, it is not of a very serious nature.

A SAD BEREAVEMENT.

Singular Accident—Death of an Esteemed Lady.

It is with feelings of pain that we announce, this morning, the death of Mrs. Catharine Bradley, wife of Mr. Samuel Bradley, late proprietor of the Allegheny Woolen Mills. The deceased met with her death in a manner that was singularly sad. About a week ago while eating at her dinner table, a piece of sweet potato lodged in her throat, and was only removed after considerable difficulty by a physician who was called in. Her throat became very sore, as a result, and she could eat nothing except such food as was prepared of the consistency of milk. She was improving, however, until Thursday evening, when her lungs became affected from her throat, and hemmorrhage set in, which, notwithstanding every effort of medical skill, resulted in her demise in a few hours.

The deceased was a native of England, and at the time of her death was in the sixty-third year of her age. She was a most exemplary lady, beloved alike in the home circle and in society, and had many warm friends, to whom her sad death will be a source of sincere sorrow.

THE KEY OF THE SITUATION.

Secretary Duff Has it in His Possession and Declines to Give it to the Committee.

At the meeting of the Water Committee on Thursday night a sub-committee was appointed to visit Mr. John T. Duff, who is lying ill at his residence in the Seventeenth ward, and procure from him the key and combination of the safe of the committee, make an examination of the same, as to loose bonds, documents &c., and report back to the general committee. Mr. Duff, who is Secretary of the committee, has been sick for several days and unable to attend its later sessions. Yesterday afternoon the committee waited upon Mr. Duff, in the performance of their duty, but he declined to inform them of the combination of the safe lock. The matter was argued with him at considerable length; he was told that the placing of the key in the hands of a regularly appointed and authorized subcommittee would relieve him from all responsibility regarding the contents of the safe, but he adhered to his determination and refused to tell what he knew about combinations. He stated, however, that his decision was in accordance with the advice of his Attorney, who instructed him to hold on to the key. When he is able to return to his office, he says he will throw the safe open to the inspection of any member of the committee.

HALLOW E'EN.

The Witches' Festival—Some of the Customs of the Olden Time—The Festival To-night.

This evening, in accordance with the demands of the calendar, is commemorated as Hallow E'en — that festive time, when witches, fairies, elfs, and His Sulphurous Majesty, are popularly supposed to have a controlling voice in terrestial affairs. In the olden time the festival was surrounded with wierd attractiveness, that had its strong support in the superstitions of the "gude folk" whose acquaintance with these spirits of earth and air, and the other place, was perhaps not more extended than their children of the present, but whose veneration and fear of them was of a somewhat stronger character. The belief that these gentle but impalpable foreigners were allowed to make a night of it on Halloween, and that if properly conciliated they could futurity unfold, made it a night on which various charms and spells were resorted to for that purpose. Even at the present day:

"Some merry, friendly contra folks,
Together do convene,
To burn their nits, and pou' their stocks,
An' haud their Hallow e'en."

These charms with which the evening hours were beguiled were in the olden time almost innumerable, but there were three most popular, at least among the rising generation, who most courted knowledge of coming events.

Burning nuts is a famous charm. A youth and maiden are named to each particular nut as they are laid in the fire, and as they burn quietly together or start from beside one another, the issue of the courtship will be. Another is, take a lamp and go alone to a looking glass, eat an apple before it, the face of your conjugal companion to be, will be seen in the glass as though in the act of looking over your shoulder. Still another is, take three dishes, put clean water into one, foul water into another, and leave the other empty. Blindfold a person and lead him to the table on which the dishes are set; if he dip his left hand into the clean water, the future wife will come to the bar of matrimony a maiden; if in the foul, a widow; if in the empty dish, it fortells with equal certainty no marriage at all. It must be repeated three times, and every time the arrangement of the dishes must be altered.

Burns has this to say of the sport:

"Wi' merry sangs and friendly cracks
I wat they did na weary;
An' unco' tales, and funnie jokes,
Their sports were cheap and cheery."

By sports like these in other days were all their cares beguiled, but the modern commemoration of the event is not so extended, and generally consists in devoting the evening to social gatherings. It is a time, too, when the Small Boy has full sway for a brief season, and when he seems possessed with the spirit of the Imp of Mischief—when the gardener moans the ravages of his garden plot, and the carpenter rejoices at the enlivening of his trade.

There are "surface indications" that "Holly Eve," as the S. B. hath it, will be duly commemorated this evening by the juvenile fraternity, although outside of this important element, the community will pass over the festival, generally, with unruffled serenity.

POLITICAL

The Sentiment of the People on the Impending Political Issues.

Preparing for the Contest on Tuesday—A Strong Endorsement of the Republican Ticket—The Colored Voters on the North Side a Unit in Support of Republicans.

Last evening, the colored voters of Allegheny assembled in large numbers in the Lecture Room of Avery College to take some action with reference to the approaching election. The meeting in addition to its numerical strength, was a representative body of the influence and intelligence of our colored citizens.

The meeting was organized at eight o'clock by the election of the following officers:

President—S. A. Neale.
Vice Presidents—Phillip Peterson and Thomas Baltimore.
Secretary—Joseph Fox.

After the organization and a statement of the object of the meeting, President Neale submitted the following resolutions:

WHEREAS, The successive advancement of the Republican party from one degree of glory to another, in giving freedom to the enslaved, in shielding the oppressed, in protecting the right and enhancing the price of labor, in securing the rights of the working classes through its protective tariff, gives proof that its future history will be as brilliant as its past, and that we can safely commit to it the unfinished work of civil rights, and those other great questions of equal importance, viz.: our national debt, our national currency, and the equitable adjustment of the reconstruction problem; and

WHEREAS, On next Tuesday, November 3d, the people of Pennsylvania will vote for those whom they consider best fitted to be the standard-bearers of the principles which form the platforms of the contending parties, we do hereby earnestly

Resolved, 1st. To vote for all the candidates of the regular Republican Party—National, State and Local.

2d. That Col. Thomas M. Bayne—our candidate for Congress, the soldier, civilian and scholar, who fought the battles of his country, while many who now oppose him gave no response to the calls of patriotism, deserves and shall receive our undivided vote.

3d. That Henry M. Long, W. H. Graham, Henry Gerwig, Major E. A. Montooth and all the candidates upon the Legislative and county tickets shall receive our earnest support, and we will use our best efforts to bring to the polls every man who loves freedom and the Republican party.

4th, That while regretting that we do not live in the XXII. District, that we might have the privilege, as well as the honor of voting for Gen. Jas. S. Negley, we, nevertheless, take occasion to express our heartfelt desire that he may again be elected to the seat in Congress which he has filled so faithfully and with such signal ability. Faithful to the commercial interests of Pittsburgh; faithful to his constituents; faithful to the cause of freedom, among whose sacred hosts he is an apostle and a leader, the people of this great county will do honor to themselves by again making him one of their representatives in Congress.

5th, That we implore the colored voters of this city, and the whole country, to rally to the polls on election day to use that sacred talisman of manhood, the ballot, in electing the men who are candidates of the party of Freedom.

6th, That the following gentlemen be appointed as members of the Vigilance Committees from the various wards, to attend to bringing out the colored voters and see that they are protected in their rights.

VIGILANCE COMMITTEES.

First Ward—Wm. Karney, Mortimer Quincy and John Smith.
Second Ward—Thos. Baltimore, John E. Washington and Jas. Johnson.
Third Ward—Philip Peterson, John Gelkerson, Charles Williams, Henry Douglass, Sr., B. T. Pulpress, Chas. Williams and S. A. Neale.
Fourth Ward—Geo. D. Ware, Wm. Harris, Chas. Francis and Jas. H. Page.
Fifth Ward—Paul J. Caperton, Thomas McGruder and Perry Cox.
Sixth Ward—Capt. W. G. Bowie, Wm. Peterson and B. T. Tyler.
Seventh Ward—Thomas Mahoney, John W. Jenkins and John Riehmond.
Eleventh Ward—John Wilson, Murray Barker, James Waters and Hanson Jones.

The resolutions were discussed at some length, and in detail, by Messrs. James A. Ralls, of Ohio, Thomas Gatewood, Henry Douglass, Jacob C. Brown, Phillip Peterson, Capt. W. G. Bowie, Isaac Morton, after which they were adopted without a dissenting voice.

A batch of campaign documents was then distributed, after which the meeting adjourned to assemble again on Monday evening at Baptist Hall, on Pennsylvania railway, Allegheny, where a grand rally of the people will take place.

John A. Ralls, Thos. Gatewood, Phillip Peterson, Jacob C. Brown, Geo. D. Ware and others will address the meeting.

Col. Bayne Endorsed at Home—What His Neighbors Think of Him.

A large and enthusiastic mass meeting was held in Bellevue last evening, in the School Hall of that place. The meeting organized by electing the following officers:

President—Rev. Wm. McCracken.

Vice Presidents—Messrs. J. J. East, Wm. Miller, Wm. White, J. J. McCormick, Richard Straw and Samuel Claney.

Secretaries—Thomas Williams and John Snodgrass.

The President, on taking the chair, made a short address, in which he reviewed the status of some of the candidates. He was in favor of, and would support the cause of temperance, yet he had no assurance, publicly expressed or otherwise, that Mr. Purviance, the Prohibition candidate, was in any way committed to this cause. He stated that he would give his support to a young man of integrity and ability—one with whom every one in the house was intimately acquainted, and who was deserving of their suffrages. That man was Col. Bayne.

J. J. East followed, heartily endorsing his predecessor's remarks. Addresses were also made by Mr. John H. Kerr and Colonel Blakely, who discussed the issues now before the people, in an able manner.

The following resolutions were placed before the meeting by a committee appointed for that purpose.

Resolved, That we see no just cause or reason why we should at this time forsake the great Republican party as a party that in the past has effected so many and so great moral reforms, is still worthy of our support.

Resolved, That as this borough of Bellevue is the birth place and home of Col. Thomas M. Bayne, the candidate of the Twenty-third Congressional District, and it being currently reported by the opposition that he would not receive the support of his own neighbors, who intimately knew him, we hereby deny the truth of such report, but on the contrary, his patriotism, gentlemanly deportment, ability and suavity of manner is worthy of, deserving, and will receive our united support, the reports of the enemy to the contrary, notwithstanding.

Resolved, That in the present pending Congressional contest, we see nothing bearing on the temperance question either for or against—that being a question for our State Legislature alone.

The resolutions were unanimously adopted, after which the meeting adjourned.

Republican Meeting on Mt. Washington—A Good Attendance—Earnest Speeches.

A Republican mass meeting was held last evening at Mr. John Wilbert's house, on Grand avenue, on Mount Washington, the attendance being large, notwithstanding the chilly weather. The meeting organized by the election of the following officers:

President—Chas. S. Fetterman.

Vice Presidents—Edward Bratt, Esq., Geo. Zehfuss, John Kinney, Gottlieb Layman, John Wilbert, Henry Meyer, Jacob Soffel, Louis Hauch, Charles Conrad, Charles Kohlmyer, Benj. Hall, Dr. J. E. Wilson, Wilhelm Minsinger, Edward Magee, John McVeigh and S. N. Goldthorpe.

Secretaries—C. M. McCord and Albert Diehl.

Mr. Fetterman, on taking the chair made a short address, after which he introduced Hon. John Tomlinson, of Harrisburg, who discussed the issues of the present political canvass. He was followed by General A. L. Pearson and W. C. Moreland, Esq., who called the attention of voters to the Republican candidates, and made especial reference to Mr. Humphries, who had always been a friend to the working man, and had interested himself in his behalf.

After listening to another short address by Dr. J. P. McCord the meeting adjourned.

Republican Meeting in the Sixth Ward Allegheny.

Last evening a large meeting of the Republicans of the Fifth and Sixth wards, Allegheny, was held at the corner of Franklin and Market streets.

The meeting was called to order by W. M. Clany and Mr. W. W. Tyson, elected Chairman. The following gentlemen were elected Vice Presidents: Messrs Alexander Patterson, Thomas Harper, Dr. Gilliford, John C. Harper, Hon. Henry Warner, Fred Heyl, Charles Pugh, Fred Thomas, George Weaver, and Edward Bothwell.

The reporters of the press were elected Secretaries.

The meeting was then addressed by Messrs. De Camp, Col. Thomas M. Bayne, Col. Richard Realf and others, upon the political issues of the day.

What Constitutes Cheapness?

An article of merchandise may be afforded at a very low price, and yet be very dear. If the qualities which constitute excellence in an article are wanting, then the same is dear at any price. And especially does this apply to boots and shoes which are intended to be worn during winter's rains and snows. For a boot or shoe which may be considered proof against dampness and frost, our readers are commended to the manufactured stock of Wm. Martin, No. 108 Federal street, Allegheny, whose selection of boots and shoes is of a very superior quality, being made of the very best materials and sold at prices to agree with inferior grades. His goods are the best and his prices very reasonable.

HUNTER, pastor of the South Pittsburgh Baptist Church will preach to-morrow morning, on "The Reasonableness and Blessedness of Prayer," and in the evening on "Attention directed to the Lamb of God and its results." Religious services will be held every evening next week at 7½ o'clock.

IT IS currently reported that the pastorate of the Mount Vernon Place M. E. Church, at Baltimore, has been tendered to the Rev. S. M. Vernon, of the Emory M. E. Church at East Liberty. This Baltimore Church is one of the finest buildings in the denomination, having only been built a year or two ago at a cost of over half a million dollars.

THE plans for the proposed new Evangelical Lutheran Church have been prepared, and have been approved by the pastor and Building Committee. The new building, it is said, will be very handsome and imposing, and will compare with the finest in Western Pennsylvania. The new building is to take the place of the old one, at the corner of Sixth avenue and Smithfield street.

THE church must win the children by every grace and secure their love. This is a special duty and brings peculiar reward. Will pastors and parents make this a study, a subject of prayer, and a constant service—to shield the young from the enemy of souls? Let the Sunday school be the vestibule, only, of the interior and better abiding in Christ Jesus, and in the ordinances of his house.—*Methodist Recorder.*

THE Evangelical Ministerial Association of Pittsburgh, Allegheny and vicinity will hold its regular monthly meeting in the lecture room of the First Presbyterian church, Wood street, Pittsburgh, on Monday next, November 2, at 2 o'clock P. M. The subject for discussion is: "The need and prospects of a new version of the Scriptures for popular use." Dr. Bittinger, of Sewickley, is to read the opening paper.

AT A congregational meeting of the Fourth U. P. Church, Allegheny, on Wednesday evening last, the congregation voted almost unanimously for Rev. W. G. Moorhead, of Xenia, Ohio, to become their pastor. It is hoped and expected that Mr. Moorhead will accept the "call." This Church has been without a pastor ever since the death of Mr. Fulton, over a year ago.

AN invitation signed by ministers of different churches of Pittsburgh and Allegheny, has been extended to Major Whittle, of Chicago, to hold a series of "Gospel meetings" in this city. Major Whittle is to address the anniversary meeting of the Y. M. C. A. on Sunday evening, November 8, and this series of meetings will be held immediately following that meeting. He will be accompanied by P. P. Bliss, of Chicago, who will conduct the singing.

THE Swing case has had a happy terminary in the Northern Synod of Illinois. By an overwhelming vote that Synod reversed the decision of the Presbytery of Chicago which acquitted Prof. Swing. And now, as peace has been the plea of the Professor's friends against further agitation of his case, we may expect they will peacefully submit to this decision and make no more trouble. We must congratulate our Presbyterian brethren on a deliverance so creditable and important to them.—*United Presbyterian.*

SUNDAY, November 8th being the day of prayer for the Young Mens' Christian Associations throughout the world, will be ob-observed in this city as follows: In the afternoon a Union prayer meeting will be held in Christ M. E. Church, Penn avenue, commencing at 4 o'clock. In the evening at 7:30 o'clock the anniversary meeting of our own city Association will be held in Rev. Mr. Scovel's church, Wood street, (First Presbyterian.) This meeting will be addressed by Major D. W. Whittle of Chicago, and Rev. S. J. Wilson, D. D., of Pittsburgh.

Elegant, Fashionable and Cheap.

A most elegant and attractive display of suitings, consisting of the finest qualities of American, English, Scotch, French and German manufactures to be found at the Merchant Tailoring Emporium of Messrs, Hespenheide & Co., No. 50 Sixth street. All the latest novelties in styles have been secured by this house for the Fall trade, and suits to measure substantially made and perfect in neatness of fit are characteristic of this establishment. And although their cloths are of superlative excellence, yet the prices charged for suits are but little in advance of a clothing house suit. The suits manufactured by Hespenheide & Co. are neat and graceful in appearance and comfortable in the wear which, taken in connection with the quality of material and make-up, give all the essentials of an elegant suit.

Do You Eat Healthy Oysters?

We have no oyster inspector, and yet we can see no good reason why we do not have one, as such an office is as much needed as a meat inspector, for many of the oysters sold in our market are unfit for food, and parties are criminal to themselves in buying them, when they can procure the genuine oyster, so large, so healthy and so delicious from the stand of Mr. B. Pulpress, No. 45 Diamond Market, or corner of Federal and Ohio streets, Allegheny city. The deep sea oyster which he makes a speciality, is considered by epicures to be the perfection of flavor and elegance. Fresh fish of every name and variety always on hand. Parties supplied in any quality desired at lowest wholesale rates. Send in your address.

THE COURTS.

YESTERDAY'S PROCEEDINGS.

State Supreme Court.

[*Chief Justice Agnew presiding.*]

James. M. Chadwick, plaintiff in error and plaintiff below, vs. Coleman, Rahm & Co., and Coleman, Rahm & Co. vs. James M. Chadwick, (one case). Errors to the District Court of Allegheny county. Argued by M. W. Acheson, Esq., for Coleman, Rahm & Co., and James Fitzsimmons, Esq., contra. This was an action brought by the plaintiff in error and plaintiff below to recover for damage done to a tract of land, and the loss of two springs, occasioned by the mining of coal by the defendants. The jury below awarded damages to the amount of $700 for injury done to the land and $1,000 for the loss of the springs, whereupon the Court after due consideration, struck of the $1,000 allowed leaving $700 for surface damages.

Chadwick thinks the Court erred in not allowing him damages for loss of springs, and Coleman, Rahm & Co., say they mined carefully and not negligently, and that there was no damage done to the surface through any negligence of theirs, not being the custom to prop up the ground, but to mine skillfully. They therefore think that the plaintiff was not entitled to recover anything, and taking exceptions to some of the rulings of the Court, they carry it to the Supreme Court, as well as does the other side.

United States District Court.

[*Judge McCandless on the Bench.*]

Evans, Dallas & Gilmore vs. Ebert & Poe, owners of the steamboat "Mollie Ebert." On motion of S. B. Wilson, Esq., solicitor for debtors, a rule was granted upon the said petitioning creditors to show cause why the Court should not grant a new trial. The motion was argued by Mr. Wilson for and Messrs. Brown, Lambie & Mitchell against the same. The new trial was awarded.

Andrew & Jones, Allegheny City, bankrupts. Register Shafer presented a report, allowing Messrs. Ferguson & Murray compensation as solicitors for debtors, and the same was approved.

William Bennett, Wyoming county, bankrupt. The petition of Allen Jayne, a creditor, for the ascertainment and liquidation of certain alleged liens was presented and referred to Register Overton for a report.

William Rhodes, Lawrence county, bankrupt. On petition of the assignee presented, an order was made for the sale of certain notes, book accounts, judgments and agreements at public sale for cash, and if anything be unsold, the said assignee may sell the same at private sale.

District Court.

(*Before Judge Kirkpatrick.*)

In the case of Bausman vs. Long, the defendant made a motion and filed reasons for a new trial.

The case of Martha McD. Smith vs. Chas. E. Riddle, administrator of Holland Riddle, deceased, is still on trial.

The application of the Columbia Conduit Company for an injunction on the West Penn Railroad Company, will come up for argument in this Court this morning.

Criminal Court.

[*Before Judge Sterrett.*]

In the case of the Commonwealth vs. Joseph Strickler and Clara Strickler, indicted on oath of William Flocker with secreting goods with intent to defraud, the indictment was quashed on account of its being defective.

Nellie Evert, indicted on oath of George Arbuckle for false pretense, was found not guilty, and the prosecutor was directed to pay the costs.

The case of the Commonwealth vs. Benjamin Shaffer, indicted on oath of J. L. Stewart for assault and battery, was settled on payment of costs by defendant.

Henry Holbrook, indicted on oath of E. D. Heyburn for embezzlement on twenty counts, plead guilty to all of them. The defendant in the case was employed as an agent for the Grover & Baker Sewing Machine Company, and appropriated the funds of the company, which he collected at different times, to the amount of about five hundred dollars. He was remanded to jail for sentence.

Commonwealth vs. Frank Easton, indicted on oath of Bryant Carroll for felonious assault and battery. This is a case growing out of the Noblestown riot. The defendant in this case is one of the parties who continued to work in the coal mines after the other miners had gone out on a strike. Exasperated at Easton for continuing to work, a party of miners went to Easton's house, last August, and stoned it and fired into it. Easton took his revolver and fired into the crowd, striking Carroll in the hip. The case was given to the jury, but no verdict was returned at the adjournment of the Court.

The jury is still out in the case of the Commonwealth vs. J. C. Bartlett, indicted as an accessory before the Court in the burglary committed by Davis and Scott.

Surety and abandonment cases will be taken up to-day.

Monongahela Foundry and Machine Works.

This institution, which has attained an enviable reputation and secured the confidence of those who have employed its manufactures, continues to manufacture to its full capacity rolling mill and miscellaneous castings of every description and machine work generally, of a superior quality and excellence of material, with careful accuracy as to the detail of all the several parts, which is the great desideratum in all machinery. Mr. W. J. Anderson's experience in the business, united with his natural tact and skill in this line, enables him to produce a grade of machinery which never fails to fill every requirement and give unbounded satisfaction. He furnishes grist and saw mills with every requisite for complete and successful operation, and manufactures James Rany's patent turret-cased turbine water wheels. Mr. Anderson's reputation as an iron founder is second to none, and he employs none but workmen of the highest degree of skill and efficiency. Send for catalogue of Gearing and Pulleys to 39 Water street, Pittsburgh, Pa.

Who Will Represent the 23d?

It is noised abroad that if Cochran be elected, he intends shipping to Washington, D. C., a car load of Mardorff's brooms for the purpose of making a clean sweep of the Republicans from the Halls of Congress. Such an adventure would be bad for the Reps, but nice enough for Mardorff, who has fifty hands constantly employed in the manufacture of his broom, and is still unable to fill his orders. The demand for this broom is wonderful indeed, and it seems as if the time will soon arrive, when every lady in the land, will have this broom and no other in her hand. *E pluribus unum.* Three cheers for the Mardorff broom!

Chill November's Surly Blasts

will soon be upon us, and now is the time to prepare for his reception by going to R. Taggart's boot and shoe house, No. 129 Federal street, Allegheny, and make selections for the nether understanding from the usually heavy and elegant assortment of all grades and styles of boots and shoes, which can here be bought for half price of what you would be required to pay in many other establishments of the same kind. Be it a single pair or a dozen pair, you can buy them at wholesale rates. Twenty per cent saved to the purchaser at this house. Be wise in time.

$200 for $125.

Rome had its Decline and Fall, and it seems as if all things else were going through the same process just now, as witness the tumbling of prices in all manufactures, and especially in the line of pleasure vehicles. Carriages which a year ago were considered cheap at $200 can now be bought for $125. Mr. H. R. Davis has a superb assortment of all styles of carriages, buggies and barouches at his Repository, Nos. 167, 169 & 171 Penn avenue, at prices which defy competition. A few hundred dollars can be invested very profitably at this establishment.

Latest Styles in Suitings.

Some of the latest novelties in Cloths, Cassimeres and Vestings have been received at No. 53 Smithfield, by B. Tiegel, Merchant Tailor, who has been especially fortunate in his selection of patterns for the fall trade, and is selling suits made to measure at very low prices. Tiegel never makes a misfit or a suit that is not excellent in material and make-up.

AMUSEMENTS.

Pittsburgh Opera House.

Miss Jane Coombs had a rousing house last night, on the occasion of her benefit, and as *Lady Gay Spanker*, in "London Assurance," she gave thorough satisfaction. At no time during the week has her acting given so much apparent pleasure as it did last evening, for during the entire performance the audience was kept in a continual chuckle, indicative of a keen sense of quiet delight that is really more of a compliment that is the most uproarious applause. Another matter that cannot be passed by without a reference is the excellent support rendered Miss Coombs. The cast of characters could not have been made better, and not a member of the company failed to do his or her part. On the contrary, all did unusually well, and as a result the sparkling comedy was made doubly attractive. Mr. Gotthold's *Dazzle* was a vigorous representation, full of life, spirit and reckless abandon. Mr. Ellsler as *Meddle*, a meddlesome lawyer, who meddles in everybody's business in the hope of advancing his legal and financial prosperity, entered so completely into the character and performed it so well that his appearance in every scene was the signal for an aggregation of smiles all over the house. Mr. Owen, as *Sir Harcourt Courtley*, "held the mirror up to nature" in the character of an English swell, pretty well advanced in age, who fondly imagines that the perfection of face and form are altogether irresistible by the tender sex, and as a result, makes a fool of himself. Mr. Owen has not done any better acting this season than he did last night, and the fact was recognized, too. Miss Troy's *Grace Harkaway* was very good, susceptible of improvement, however, and Mr. Crompton as *Max Harkaway* was quite satisfactory.

At the matinee this afternoon "Camille" will be produced, and as it drew well at the beginning of the week, it will doubtless prove to be fully as great an attraction this afternoon. This evening "School for Scandal" will be given.

Library Hall.

The engagement of the Sherry Dramatic Combination, which has been playing this week at Library Hall, concludes this evening, and when it returns to Pittsburgh again it is to be hoped that the organization will meet with greater appreciation than it has received this time. The wish is expressed because the combination comprises a very great deal of dramatic talent and ability, and is in every way deserving of support. Last evening, however, the audience was an improvement on former ones, and the prospect for large houses at the matinee this afternoon and this evening are good. A new play, founded on incidents of the late rebellion, and entitled "Field and Fireside" was produced last night with Miss Rose Wood as *Cora Shelton*, Lewis Morrison as *Colonel Airey*, and Mr. Locke as *Merrygrave*. It would be unnecessary to say that these three leading parts were well represented because all who have been fortunate enough to see the persons named are aware of their capability to get through with every character they undertake to essay. "The Marble Heart," one of the most beautiful plays now in vogue will be produced this afternoon. It was on the stage on Thursday night, and was exceptionally well performed. Miss Wood is thoroughly familiar with the character of *Marco*, having played it often before, and never failing to create a flattering impression. The play for to-night will be "Field and Fireside." Seats for either of to-day's performances can be procured at Hale's music store.

The Library Course.

The series of lectures and entertainments to be given this winter by the Young Mens' Lecture Association will be opened on Tuesday evening next, by the J. R. Thomas Concert Company.

Concert in Allegheny.

A concert will be given next week by the choir of the Arch street M.E. church, Allegheny, assisted by the Allegheny Quartette, and the Orpheus Club of this city. The concert is to be under the direction of Prof. W. B. Slack, which is a guarantee that it will be of a varied and enjoyable character. This is one of the best church choirs hereabouts, and as they have been preparing for some time, the entertainment will be one of rare enjoyment.

FINE FURS.

Elegant Seal Sacques.

Ladies' Seal Driving Gauntlets.

Childrens' Furs.

For some time past there has been a growing demand for finer furs than is usually sold in our market, and in order to meet the demand Messrs. Fleming & Oglevee, No. 139 Wood street, have been gradually improving the grade of the goods they sell and are now prepared to offer as fine a line of goods as has ever been shown in this market.

The line of Silk Sacques is especially worthy of notice, as it is among the largest in our city, and is being reduced rapidly at prices that astonish most purchasers who are judges of the goods.

Muffs and Boas in all grades, from the finest down to a medium low grade.

The Seal Driving Gauntlets are splendid for cold days, and are a novelty in Seal.

Minks in Muffs, Boas, Collars, Talmas, Berthas, Eugenies, and Cloaks. Black Martyn and Lynx, Hudson Bay and Russian Sable.

Ladies' Seal Caps in many novel styles. Having but one price, and determined to sell goods honestly and follow out the principle of keeping the best that can be had, and selling at reasonable prices.

Messrs. Fleming & Olevee have built up a trade to justify their desires to continue business in this way. Their goods are open to the inspection of all, whether purchasers or not.

Insurance—Where to get it.

It gives us pleasure to again call the attention of our readers, who may have property to insure, to the advantages which they will find at the agency of Messrs. R. E. Heron & Co., in the Union National Bank Building, corner Market and Fourth streets. The companies represented there are all good ones—the list comprising home and foreign companies—and any policy taken out with this agency will be a safe insurance in every sense of the word. Messrs. Heron & Co., knowing that they have good companies, and can offer reasonable rates and the best security, do not indulge in puffing. They are content to let their business speak for itself, and we are sure they could have no better commendation than comes from all with whom they have had dealings. Knowing them as we do, we refer our readers to their agency with an assurance that the reference will never be regretted.

☞FIFTH AND LAST GIFT CONCERT IN AID OF THE PUBLIC LIBRARY OF KENTUCKY.

A CARD TO THE PUBLIC.

The management have determined to have the drawing of the Fifth and Last Gift Concert of the Public Library of Kentucky, on the 30th day of November next. We believe now that all the tickets will be sold, and that the drawing will be a full one, but whether all are sold or not the drawing will nevertheless certainly come off on the day appointed.

The special object of this card is to call a meeting of the ticket-holders at Public Library Hall, on the 20th of November, to make arrangements in connection with the committee appointed by the Trustees to superintend the counting of the tags representing the numbers of tickets sold. While there is no actual necessity for the presence of ticket-holders, as under our arrangements the interests of all are equally cared for, yet at the same time I would greatly prefer that as many of those interested as can, would attend this meeting and see each for himself how perfectly fair and impartial the distribution must be.

Every arrangement has been made for the drawing—but little more than a month remains for the sale of the remainder of the tickets, and whatever is done must be done promptly,

THOS. E. BRAMLETTE, Agent and Manager.
